# T H E N E W A M E R I C A S I N G E R S

July...and school is in session! The Australian island state of **Tasmania** is cold (it's Winter down under), but the hospitality of the people in this absolutely beautiful rural area is warm. Schools are open for us to share the gospel in a region where only 4% of the children have ever been inside a church.

In Sydney, with 4 million people, we also have opportunities to share the love of Jesus in both public and private school assemblies. Sydney will remind you of a mix between LA, San Diego, and Seattle. While most in **Australia** have an English heritage, some also come from Asia, the Middle East and Africa. We'll take time to see the sites, and take pictures with kangaroos and koalas. Australians are friendly and easy to talk to, but, like in Tasmania, few people are Christians.

**Hong Kong** is a different world... tropical and hot! Here, as in Australia, we can share with the students in English. We love Hong Kong, where Youth for Christ sets us up to share several school assemblies each day. We also get to do programs on the streets, in parks, shopping malls, public auditoriums and churches. Of course we'll also take time out to see the sights and shop in this amazing city of 6 million. This is a city that never sleeps, full of people who are hungry for the gospel and often take our tracts and read them on the spot...they have questions about a God who they know nothing about.
